Offline installer

The offline installer downloads a special Office file so you can install Office later, when you're offline. You can install Office on the same computer or on other computers. Both the 32-bit and 64-bit versions of Office are included.

To use Office after you install, you have to sign-in at the prompt and activate it. Just sign in with your Microsoft account: **workinginmypjs@outlook.com**. This is the Microsoft account associated with your Office download.
